Objective

Aspiring software developer with hands-on experience in full-stack web development and AI-powered applications, seeking an opportunity to contribute to impactful projects, grow technical skills, and deliver real-world solutions in a collaborative environment.

Work Experience

- Advanced Java Intern** – Compilers Technology, Amravati *June 2023 – July 2023 (6 weeks)*
– Built FacultyDesk, a Java Swing + JDBC desktop application that digitized administrative workflows for college staff.
- Project Lead – Project Internship** – AWS Cloud Club PICT *Feb 2026 – April 2026 (2 months)*
– Developed **Automated Meeting Tracker**, an AI-powered app that extracts action items, deadlines, and owners from meeting transcripts using a hybrid NLP + Regex pipeline.

Education

- Pune Institute of Computer Technology**, Engineering in Computer Technology *July 2024 – June 2027*
• CGPA: 9.50/10
- Government Polytechnic, Amravati**, Diploma in Computer Engineering *June 2021 – April 2024*
• Percentage: 93/100
- Anglo Hindi High School, Yavatmal** (SSC Board) *June 2020 – May 2021*
• Percentage: 95.60/100

Projects

Automated Meeting Outcome Tracker

Technologies: HTML, CSS, JavaScript, FastAPI, Python, NLP, Regex

- Built an **AI-powered web application** that converts raw meeting transcripts into structured, actionable data.
- Used a **hybrid NLP + Regex approach** to accurately extract action items, deadlines, and assigned members from unstructured text.
- Designed a **FastAPI backend** for fast, lightweight, real-time processing with a clean frontend interface for user interaction.

Say No to Food Wastage

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Led a **5-member team** to build a full-stack donation platform connecting donors, NGOs, and delivery volunteers.
- Designed and implemented **separate modules** for donors, NGOs, and delivery agents to manage food, clothing, and monetary contributions.
- Incorporated **real-time tracking** to streamline distribution, minimize wastage, and maximize community impact.

PashuSwasth-Doot

Technologies: HTML, CSS, JavaScript, React, Node.js, MongoDB

- Built a full-stack platform offering veterinary resources, **home remedies**, and **doctor-search** to rural farmers.
- Enhanced accessibility by integrating video tutorials and a feedback system, improving user engagement and trust.
- Addressed a critical gap in **livestock healthcare access**, enabling farmers to find reliable guidance digitally.

Technical Skills

Languages: C, C++, Java, Python, PHP

Web Technologies: HTML, CSS, JavaScript, React, FastAPI

Databases: MySQL, MongoDB, PostgreSQL

Tools: Git, GitHub

Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), NLP
